## **Color Craft Aerospace Graphics attends Hamburg Aircraft Interiors Expo as it surpasses 3,000,000 parts shipped.**

(Tukwila, WA, February 5, 2018) – Color Craft announced today that it has delivered over 3,000,000 parts into the aerospace supply chain since it was acquired in 2011. This milestone marks a transition from a nearly exclusively focus on aircraft exterior graphics and an expanding worldwide customer base for the once struggling aerospace supplier. The company continues to leverage the support of the Washington State Department of Commerce and the Office of Economic Development & Competitiveness by attending international events such as Hamburg AIX with other leading Washington State businesses.

“When we acquired the assets of this business in 2011 the business did very little aircraft interiors related business and no international sales. Our team has committed to a high customer service approach along with world class quality and on-time delivery (over 99.6% efficiency for each), and that commitment has paid off. I expect the Color Craft team will hit the 1,000,000 parts shipped per year in the very near future.”, said Doug Stewart, President of Color Craft.

The worldwide Aircraft Interior market is forecasted to grow from USD \$26B in 2017 to USD \$38.85B in 2022.

### **About Color Craft, Inc.**

For over 60 years Color Craft, Inc. has been a leader in providing high performance graphic solutions to customers worldwide.
